PROJECT: SPROCKET MODERN WORKSPACES

LOCATION: Firestone, CO

SIZE: 22,014 SF

PROJECT TYPE: Commercial / Office

GENERAL CONTRACTOR: Evergreen Industrial

ROOF PANELS: AS-24

OVERVIEW:

Located in Firestone, CO, Sprocket Modern Workspaces is a flexible commercial development featuring 18-foot ceilings, loft spaces, private patios, and mountain views. Working with Evergreen Industrial, we supplied engineered steel framing and AS-24 standing seam roofing for two matching structures. The design incorporates interconnected sections, large framed openings, and architectural parapets to accommodate various commercial uses.

FEATURES:

- Two matching structures with three connected sections each
- 24-gauge AS-24 standing seam roofing
- Framing for 14 skylight openings and 24-foot parapets
- Large storefront openings with specialized portal framing
