

Alliance
STEEL BUILDING SYSTEMS

PROJECT: 1THIRTYONE MOTORCARS

LOCATION: Fort Worth, TX

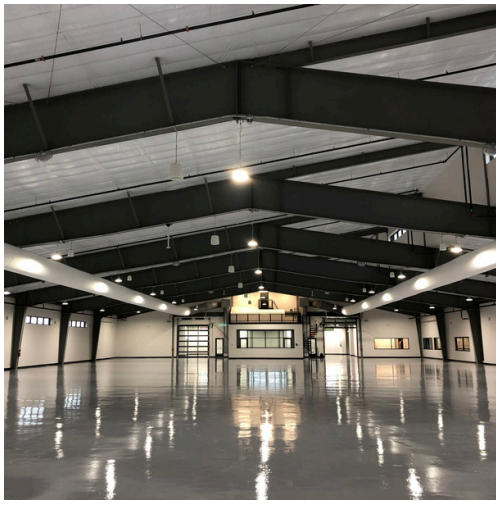

SIZE: 54,042 SF

PROJECT TYPE: Commercial / Automotive

GENERAL CONTRACTOR: Fort Construction

ROOF PANELS: ALOK-16

WALL PANELS: 7.2 Panel, A-12 Soffit

OVERVIEW:

1ThirtyOne Motorcars is a 54,042-square-foot collector-car facility on five acres in Fort Worth. The complex combines showroom, climate-controlled storage, restoration, maintenance and detailing. Working with Fort Construction and Franz Architects, Alliance engineered and supplied the PEMB package, including roof, wall and soffit systems, trim, flashing and select framing. A nearly 200-foot clerestory brings natural light into the warehouse. Erection was by others.

FEATURES:

- 52,388 SF of A-Lok-16 standing-seam roofing
- 13,934 SF of 7.2 wall panels
- 8,376 SF of A-12 soffit panels
- 30-foot-wide, nearly 200-foot-long clerestory
