Alliance
STEEL BUILDING SYSTEMS

PROJECT: SAFEWAY

LOCATION: Surprise, AZ

SIZE: 63,290 SF

PROJECT TYPE: Commercial

GENERAL CONTRACTOR: Campbell Construction

ROOF PANELS: Alok-16

WALL PANELS: 7.2 Panel

OVERVIEW:

As an anchor of the Sterling Grove Shopping Center, this 63,290-square-foot Safeway features a glass curtain wall entrance, structural canopies, and a low-slope TPO roof. Alliance Steel supplied engineered framing, roof decking, and ALOK-16 and 7.2 panels, accommodating substantial rooftop equipment and integrating the steel structure with CMU shear walls.

FEATURES:

- Framing for 40 rooftop openings measuring 5' × 6'
- Structural support for 18 rooftop equipment loads
- Custom HSS columns, jack beams, and curtain wall supports
- Roof framing designed for an additional 10 PSF solar load
